This is a Group  
of Imported Heifers  
which are Selling  
in the Sale

The longer I retain my connection with the purebred livestock industry the more convinced I become that it does make a difference where you buy! Hundreds of newcomers to the industry write to the office of the breed magazine each year seeking unbiased information concerning the good sources of supply. The number of breeders who can be recommended wholeheartedly for the quality of their cattle and for their fair treatment of customers is fortunately large.

In making such recommendations one is inclined to think first of the herds he has known longest . . . herds where a constructive program has been pursued without interruption. Such a herd is located at Campbell Farms. The first Shorthorns for this herd, all excellent individuals and royally bred, were purchased by the late Duncan Campbell in 1920. Grant Campbell, son of the founder and present operator, has made the Shorthorn business his principal enterprise since 1926 except for the war years when he served overseas. In 1938 he won the International grand championship with the imported-in-dam senior bull calf, Campbell's Command.

During recent years, Grant has supplemented his own strong herd with the purchase of many top individuals from Scotland's noted breeding nurseries. Much to his credit is the fact that the kind he has imported has proved so very popular that a continual flow of imported Shorthorns has passed through the farm. This sale, made up entirely of imported Shorthorns, will be a grand place to buy . . . and Grant Campbell is the right kind of a gentleman from whom to buy.

HAL LONGLEY, Publisher  
THE SHORTHORN WORLD.

# We Invite You..

To you as Shorthorn breeders and friends we extend a hearty invitation to be with us on Saturday afternoon, September 2nd, to inspect our "All Imported" sale offering.

It is a great pleasure to be able to present to the Shorthorn public, a group of imported cattle with all the individual merit and carefully preserved blood lines that can come only from the great breeding establishments of Scotland and England. Each animal in the sale was personally selected by me, and any individual which did not measure up to a high standard was not included in the sale list.

Every female in the sale has been bred, and a good many of the females sell with calves at foot and rebred. A study of the individual pedigrees of the females and the bulls they are bred to, will show that a planned program of matings has been followed, in order to do this a good many of the females were purchased and then left with the breeders to be mated to specified stock bulls.

The devaluation of the Canadian dollar has made this a particularly attractive field for U.S. breeders seeking profitable investments, in that they now find their dollar worth an additional 10% in Canada.

So it is with extreme pleasure that the Campbell family asks each and every one of you to be with us on Saturday, September 2nd.

**ELLASLEA  
LAVENDER  
(imp)**

**ELLASLEA LAVENDER** (imp) is probably the best imported female offered in a public auction in the past fifteen years. She stood third in the championship class at Perth this year, and after the show she was specially mated to Calrossie Baronet, Major Moubray's great breeding son of Kirkton Baronet. Calrossie Baronet has sired many outstanding bulls and females. He is the sire of Naemoor Cinderella 3rd, Grand Champion female at the Royal Winter Fair 1949. Service date is February 27th, 1950.

Cruggleton Brunel is also the sire of Cruggleton Annex, one of the greatest show and breeding bulls ever used by Mr. Marshall at Cruggleton.

Cruggleton Prince Bob is by Cruggleton Perfect and therefore is a half brother to Cruggleton Account, 1949 Perth Supreme Champion. The first crop of bull calves by Prince Bob sold for an average of \$6,000 at Perth.

## CALROSSIE COCK ROBIN (imp)

**CALROSSIE COCK ROBIN** (imp) was withdrawn from the 1948 Perth Sale for use as a stock bull at Calrossie. He was imported in December, 1949, for use at Campbell Farms. Since that time all the females in the herd have been bred to Cock Robin, and this sale will provide a great opportunity for breeders to get his service.

Since he arrived at the farm many noted breeders and shrewd judges of Shorthorns have seen Calrossie Cock Robin, and without fail they have done away thinking that here is a bull that can do great things for the Shorthorn breed in Canada and the United States.

The sire, Kirkton Baronet, is probably the greatest breeding bull that has come into the Shorthorn picture in the past twenty years. His first crop of calves sold for over \$80,000 and since 1947 his sons and grandsons have made phenomenal averages. Females sired by Kirkton Baronet have not been offered to the public.

Calrossie Randolph is the sire of Calrossie Napoleon, Calrossie Cavalcade, Calrossie Resource, and many other sires that have made history in the Argentine.

The dam of Calrossie Cock Robin, Calrossie Royal Rosemary, is described by Captain MacGillivray as a perfect type of female, typical of her sire, Calrossie Randolph.

The following 17 females in the catalogue are bred to Calrossie Cock Robin.

## BEAUFORT BOLUDO

**BEAUFORT BOLUDO** is one of the best stock bulls in Britain to-day. He was Reserve Junior Champion at Perth, 1948, and sold for 4,000 gns. to the Anderson brothers. His dam is the best cow in the Beaufort herd, and his sire is the famous breeding bull, Bapton Battleship.

Beaufort Boludo is a full brother to Beaufort Orange Talisman, sold to Mrs. James Ewell, Ringwell Farms, Illinois, for 1,180 gns., top priced female sold at public auction in 1947.

Many of the calves sired by Beaufort Boludo are outstanding. One of the best breeding bull prospects sold at Perth this year was sired by this great son of Bapton Battleship. There are some excellent imported-in-dam sons and daughters of Boludo in the province of Ontario. Recently one of these, an eight month old bull calf sold for \$1,800. At the recent Highland Show, four calves sired by Beaufort Boludo were shown, winning 2 firsts and 2 seconds. His get also won first and second in the pair class for bull and heifer.

The following 4 females are bred to Beaufort Boludo.

## CORRIMONY GOLDEN SOVEREIGN

**CORRIMONY GOLDEN SOVEREIGN** was purchased by the Anderson brothers at Perth this year, and many good judges rated this young bull as one of the really top breeding bull prospects of the sale.

The dam of Corrimony Golden Sovereign, Beaufort Augusta 3rd, was the Supreme Champion Shorthorn at the English Royal in 1947, and was sold by public auction that year at Inverness for 1,000 gns., to Mr. J. M. Grigor. The sire, Burnton Classic by Bapton Commando was first in the March class at Perth in 1947. A close study of the pedigrees of Bapton Commando, Beaufort Boludo, and Corrimony Golden Sovereign will indicate that Anderson brothers are following a planned program of line breeding.

The following 12 females are bred to this bull.
